Mr. Bi Xiaoge submitted a written report to the Board of Directors of the Company on 24 June 2024 and ceased to hold the position of deputy general manager of the Company, but is still working in the Company.

Note 2: Any difference between the total of the above figures and the arithmetic sum of the breakdowns is due to rounding.

(VII) Explanation on the difference between the number of Restricted Shares actually granted and the number of Restricted Shares to be granted:

In the process of payment verification after the first grant date, one Participant voluntarily waived part of the Restricted Shares to be granted, and no further grants were made to three Participants due to their change of work positions and failure to satisfy the conditions of the grant. Therefore, the actual number of Participants for the first grant of the Company was 237 and the number of Restricted Shares actually granted was 26,769,600 shares.

Except for the matters described above, the actual grants under the 2023 Restricted Share Incentive Scheme were consistent with the grants of Restricted Shares considered and approved at the twenty-first meeting of the fourth session of the Board of the Directors of the Company held on 18 June 2024.

The total cost of Restricted Shares granted was estimated to be RMB53.5392 million, and the amortisation of the cost of Restricted Shares from 2024 to 2028 is set out in the table below:

Based on the current situation, the Company estimates that the amortisation of the expenses under the Scheme will affect the net profit of each year during the Validity Period without considering the stimulating effect of the Scheme on the Company's performance. Taking into consideration the positive effects of the Incentive Scheme to the Company's development, such as boosting the enthusiasm of the management team and improving the operating efficiency, the performance improvement of the Company brought by the Incentive Scheme will significantly outweigh the increase in expenses incurred by it.
